THE PROBLEM

EVERY STUDENT STARTS FROM ZERO.

You arrive in a new city and know nobody. The university gives you a student ID, not a social life.

The city is full of things for you — courts, canteens, museums, venues — but nobody maps them for international students.

Student associations exist, but they are fragmented, informal and invisible online. There is no infrastructure.

Community is infrastructure.

We did not start with a product. We started with a Thursday night. Then we built the infrastructure around what was already working.

THE ECOSYSTEM

FOUR TOUCHPOINTS. ONE COMMUNITY.

WhatsApp Community

The main channel. Events, housing, questions, daily announcements. Where the community actually lives.

4,000

MEMBERS

ISOT App

Member card, events, karaoke queue, city map, door check-in, digital assembly. Built in-house.

220

MEMBERS IN TWO WEEKS

Website

Student guides, event listings, city discovery, partner venues. The public entry point and SEO funnel.

43

PAGES PUBLISHED

Instagram

Event content, cultural moments, the visual face of ISOT. Discovery channel for new arrivals.

2,000

FOLLOWERS

TRACTION

REAL NUMBERS. NO PAID ADS.

4,000

WhatsApp community members
ORGANIC GROWTH ONLY

220

App registrations
IN THE FIRST TWO WEEKS

3—4

Events per week, every week
MONDAY · THURSDAY · SATURDAY

2,000

Instagram followers
GROWING EACH SEMESTER

THE APPLICATION

NOT A LANDING PAGE. A WORKING PLATFORM.

 Digital Member Card

QR identity scanned at the door for perks at Rough and Capodoglio.

 City Map & Sports

Campuses, canteens, museums, running maps and free courts.

 Gem Hunt & Trails

Guided city tour and photo gem hunt turning discovery into a game.

 Live Karaoke Queue

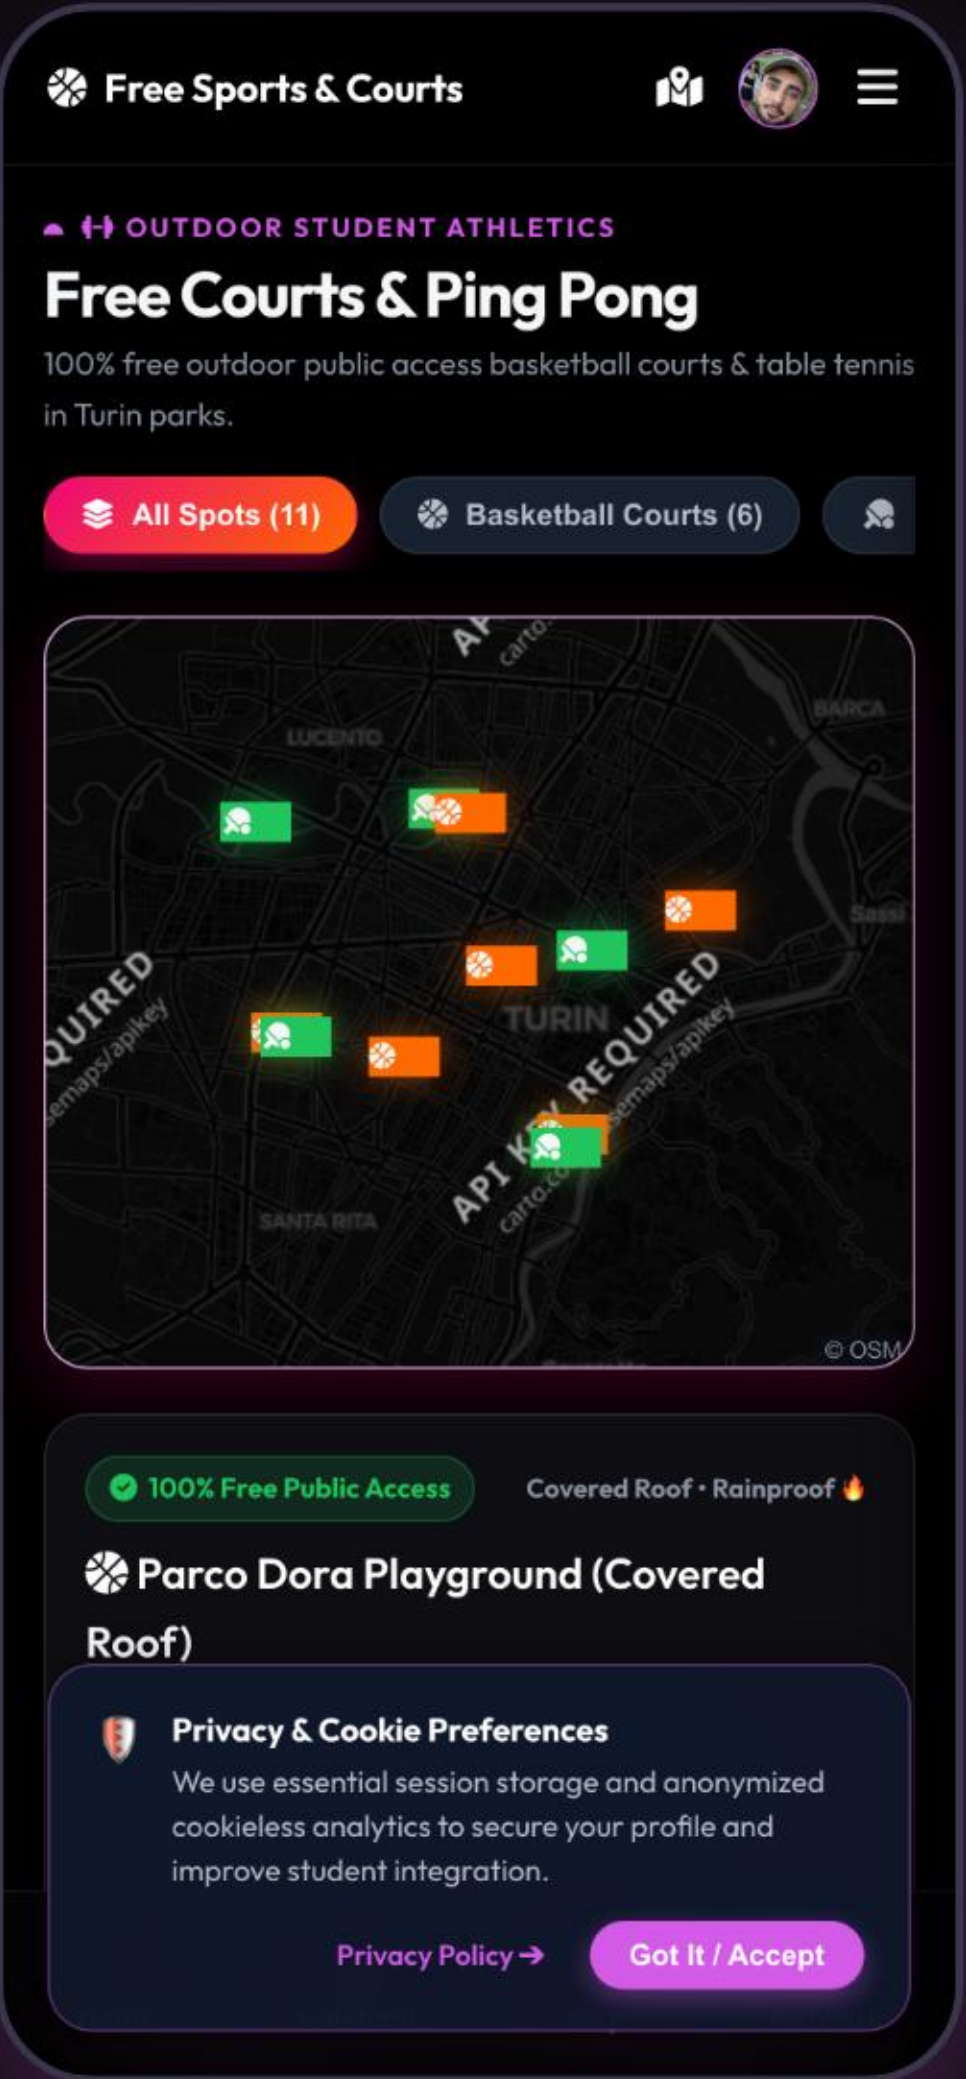

Members add songs from the app. The KJ screen runs the live setlist.

 Door Check-In

Staff scan mode with a live attendance log for real door data.

 Board Dashboard

Signups, attendance log and system monitoring for the board.

THE DIFFERENTIATOR

COMPLIANCE IS A FEATURE.

Every Italian association carries the same legal machinery: a general assembly, motions, recorded votes, board elections, a volunteer register, consent records. Most run it on paper. ISOT runs it in the app.

- Digital general assembly with quorum tracking and recorded attendance
- Motions and member voting, with results stored and auditable
- Board candidacies and elections run inside the platform
- Volunteer register and membership validation, as RUNTS requires
- Consent records and an activity log for data protection

THE ANSWER BEFORE THE QUESTION.

Students search for the same twenty problems every September. We wrote the guide for each one, so the search that brings them to Turin also brings them to ISOT.

- Permesso di soggiorno, codice fiscale, tessera sanitaria
- EDISU scholarship, student residences and housing
- Student canteens, GTT transport pass, university system
- Nightlife, sport, bouldering and city discovery

PUBLIC PAGES

THE MODEL

SUSTAINABLE BY DESIGN.

VENUE PARTNERSHIPS

Community contributions

Partner venues contribute monthly for a guaranteed international crowd.
The association is funded by the value it already creates.

INSTITUTIONAL

University grant

Registered on the University of Turin student association register, with an awarded grant funding events and equipment.

STRUCTURE

Non-profit, clean lines

A strict separation between association income and personal professional activity. Two contracts, two accounts, no overlap.

WHAT COMES NEXT

THE PLATFORM IS BIGGER THAN ISOT.

1

Complete the national register

Finish the RUNTS process and the statute amendment, unlocking grants, formal partnerships and the legal standing for the next phase.

2

Career Lab and the professional track

Weekly workshops, CV clinics and mentorship built for international students entering the Italian job market.

3

License the platform to other associations

Every association in Italy faces the same problems: members, events, reporting, assemblies, compliance. ISOT is the testbed. The platform is the product.

LIVE GLOBALLY, CONNECT LOCALLY.
